## PROFILE

Architectural designer who draws it, builds it, and automates it: permit sets for city and county approval, fabrication from concept to install, and Grasshopper, Python, and AI pipelines that speed up design work.

## EDUCATION

**M.Arch, Southern California Institute of Architecture** 2023–2026

**B.A., Architectural Studies, University of California, Los Angeles** 2018–2020

**A.S., Liberal Arts, Santa Monica College** 2015–2018

## PROFESSIONAL EXPERIENCE

### PJC Drafting | Lead Drafter, Residential Permitting — 2025–Present

- Produce permit drawing sets (floor plans, elevations, sections, roof plans) for single-family and senior residential projects submitted for city and county approval.
- Carry drawings from existing conditions through design development and permit submittal, incorporating client revisions.

### Exhibit A | Drafting Consultant — 2025

- Drafted interior plans and elevations for residential kitchen and bath remodels through multiple client revisions.

### SCI-Arc | Graduate Teaching Assistant, Design Development — 2024–2025

- Supported the M.Arch Design Development curriculum, bridging schematic concepts with technical execution.
- Guided students on integrated building systems, structural logic, and assembly documentation.

### SCI-Arc Wood & Metal Shop | Technical Fabrication Assistant — 2023–2025

- Managed fabrication workflows and supervised safe use of table saws, band saws, and jointers.
- Advised on hardwood processing, joinery, and MIG welding for structural prototypes and large-scale models.

### Monster City Studios | Technical Designer & Project Manager — 2022–2023

- Took large-scale themed environments and interactive installations from concept design through fabrication and install.
- Managed cross-functional teams, budgets, and design fidelity across the production lifecycle under tight deadlines.

### cityLAB UCLA | Undergraduate Fellow — 2019–2020

- Managed the lab's online presence, creating content, graphics, and quarterly newsletters.

**School Lands Housing Research | Student Researcher** Spring 2020

- Founding research team member: compiled precedents and data on affordable teacher housing on school-owned land, laying the groundwork for cityLAB's School Lands Housing research.

### Mercedes-Benz USA | Service Technician — 2007–2015

- Maintained and repaired luxury vehicles, building a deep foundation in complex mechanical and electrical systems.

## HONORS

Dean's Honors List, University of California, Los Angeles — Spring 2019, Winter 2020

## SKILLS

- **Drafting & Documentation:** AutoCAD, Revit, permit drawing sets, as-built documentation
- **Computational Design:** Rhino 8, Grasshopper, Python scripting, Blender
- **Generative AI:** ComfyUI, Flux, Stable Diffusion pipeline development
- **Digital Fabrication:** 3D printing, CNC milling, advanced woodworking, MIG welding
